Phone: (250) 383-4101  
Fax: (250) 383-4144  
Toll-free: (800) 778-8277 (B.C. only)

March 16, 2021

### Changes to the Courses Required to Participate in Vaccine Activities

Please note that the Provincial Health Officer's Order to allow dental hygienists to perform activities related to the administration of the COVID-19 vaccine that was originally issued on February 23, 2021 has been **replaced with a subsequent Order dated March 14, 2021**. The [current Order](#), now specifies **three** mandatory education and training requirements for dental hygienists which are as follows:

- Training Requirement 'B': In-person education and clinical lab training to perform intramuscular injections as per the BC CDC's COVID-19 Immunization Skills Checklist
- Training Requirement 'C1': BC CDC's Immunization Competency Course
- Training Requirement 'D': BC CDC's COVID-19 Immunization Webinars

This is a change that has been made by the Provincial Health Officer to reduce some overlap that was observed between the eight mandatory education and training requirements that were specified in the original Order. If you are interested in participating in the immunization campaign, please be aware that links to access the training requirements are available in the current Order.

The College has received questions from registrants asking if the mandatory education and training activities will be eligible for continuing competency (CC) credit. The overarching principles that apply to CC credit eligibility identify that activities "must be evidence-based and contribute to scientific, practical, professional or ethical aspects of the registrant's **dental hygiene practice**" ([QAP Information Guide](#), pg. 72). Since the current circumstances relate to an expanded scope of practice that is temporary in nature, eligibility for CC credits will be reviewed by the Quality Assurance Committee and a decision is expected in the coming weeks. The College will notify registrants of the outcome as soon as this has been determined, so please stay tuned.

As a reminder from the provincial government, health professionals who are interested in participating in the immunization campaign are able to register their interest online through the COVID-19 Emergency Health Provider Registry (EHPR). This registry is a provincial resource which health authorities can access as needed to connect with health professionals who have indicated their ability to deploy during the public health emergency. This may include non-immunization (e.g., administrative) activities within the immunization campaign and/or other health service roles.

You can register online with the COVID-19 EHPR by visiting <https://forms.hlth.gov.bc.ca/registry-covid-19>. If you have questions about this process, please refer to the FAQs linked to the online registration form or email [healthlinkbc@gov.bc.ca](mailto:healthlinkbc@gov.bc.ca) for assistance. **Be sure to include "COVID EHPR" in the subject line.**
