Provincial Health Officer Order RE: Mandatory COVID-19 Vaccination for All Regulated Health Professionals

February 10, 2022

BC's Provincial Health Officer Dr. Bonnie Henry announced yesterday that she is issuing a new public health order requiring **all** regulated health professionals to be fully vaccinated against COVID-19 by **March 24, 2022**. More information about this announcement is available [online](#). Following consultation with BC's health profession regulatory colleges, we expect the new order will be finalized and issued next week.

This expands upon [an order issued in October 2021](#), which mandated COVID-19 vaccination for health care workers working in acute, long-term and community health care settings.

We respect the Provincial Health Officer's decision to require mandatory COVID-19 vaccination for regulated health professionals in B.C.

Registrants are not required to do anything at this time.

We will share more details once the public health order is finalized.
