

## Oral Health Regulator Amalgamation Small Group Meeting Sign Up Form

The oral health regulators are seeking the perspective of oral health care providers in B.C. regarding the amalgamation of the four existing colleges into a single oral health regulator.

We are looking for registrants to represent all parts of the province and a variety of practice settings and experience to participate in focused online group meetings. As these are small group meetings there are a limited number of seats; however, the initial discussions of these small groups will inform an upcoming survey of all registrants.

Please review the [backgrounder](#) and then complete the form below to express your interest in participating. Participants will be selected to ensure different perspectives and practice experiences are reflected. If you are not contacted to attend a small group meeting, you will have an opportunity to provide feedback through the survey mentioned above.

Name \_\_\_\_\_

Email \_\_\_\_\_

My primary practice setting is:

- Dental Hygiene Private Practice
- Dental Private Practice
- Public Health
- Education
- Research
- Other

I primarily reside in:

- Lower Mainland
