

College of Dental Hygienists  
of British Columbia

# QAP Content Categories for 2016 PDC Sessions

**BC Dental Hygienists** may claim up to 2 credits for visiting booths/displays at the 2016 Pacific Dental Conference, and in addition may claim hour-for-hour credit for individually attended courses. More information can be found on the College of Dental Hygienists of BC website: [www.cdhbc.com](http://www.cdhbc.com)

Each session with dental hygiene-related content has been coded for BC dental hygienists to assist in making selections that will meet their QAP learning goals. Please refer to the list of QAP content categories on page 3 to assist you in determining which content categories are represented by the letter-number codes next to each session below (e.g. D3). A content category may contain more than one element (e.g. instrumentation, ergonomics and dental hygiene therapy) so when completing your QAP Online Learning Plan, please select the categories that best represent the actual content covered in each PDC session. It is important to note that these correlations are suggestions only, based on the limited information provided within the session outlines.

**CDHBC registrants must use their professional discretion when selecting courses and determining which QAP competency categories the course content addresses.**

### Legend for QAP content categories for CDHBC

- Y** – Courses with a Y indicate that they align with one or more suggested QAP content categories. A legend of the QAP content categories can be viewed on the PDC and CDHBC websites.
- NA** – Courses with an NA indicate that a QAP content category has not been identified and CDHBC registrants must use their professional discretion in determining whether the course is eligible for CE credit.

**Please Note: A number of sessions for Saturday's "So You Think You Can Speak" series (pages 84-89 of the Conference Program) are actually QAP approved and are listed here on Page 2.**

## Thursday

Content Category	Title (in alphabetical order)	LA Code*	Speakers
C4, D1	Antibiotics in Dentistry		Robert Fazio
C5, D7, D6	Bad Bounces and Broken Teeth – The Sports Dentistry Side of Your Practice		Douglas Lambert
B2, F2	Can We Talk – Mastering TOP TIER Communication		Chris Scappatura
C4, D1, D3, D4	Cancer Patient Management & the Hesitant Dental Team		David Yang
